

Authorized Dealer

Safe Haven Security

Through your realtor, I am able to give you all of the following equipment at no charge:

- Smart Home Touchscreen Keypad (\$600 Upgrade)
- All External Door Sensors (retail \$129 per door)
- New Pet Immune Infrared Sensor (retail \$229)
- New Siren (retail \$129)
- New Backup Battery (36 hours of coverage in the event of a power outage)
- Yard Signs and Window Decals
- Free Lifetime Warranty on All Equipment
- Price Lock Guarantee (Price will never go up on you!)
- Homeowner's Insurance Discount
- Theft Protection Guarantee- (We will cover the first \$500 of your insurance deductible in the event of a break in while the system is armed)

SECURITY ONLY OPTIONS:

Wireless Forwarding Signal

- This option enables us to communicate with your home via cell network; no landline is required. All you need is electricity!
- With this setup you would operate the system through the key pad or Bluetooth technology from your phone (within 100 ft from the system).
- Most efficient way to have your home monitored. It is a broadband signal that runs off the three closest cell towers. This is most reliable: if your internet is down or buffering, you still are secured. If the power goes out it has a back-up battery that last up to 36 hours!

Wireless Forwarding + the Interactive App

- This is our most popular option for just security minded clients—this system includes everything listed above, plus the Interactive phone app.
- The app allows you to arm and disarm the system from anywhere in the world, view live updates with any activity from the system, receive notifications and view a blueprint of your home showing exactly which area is being tampered with.

This option will also send you text notifications if you forget to arm the system and then you can arm it right from your phone!

- This is the best way to self-monitor your system from anywhere you have data.
- Can be downloaded on multiple devices.

HOME AUTOMATION AND SECURITY OPTIONS:

Interactive App + Pro Video Monitoring

- This system includes everything listed above, plus one free camera (Can choose between an indoor, outdoor OR Skybell Doorbell cameras).
- With video surveillance you can keep an eye on your home, pets and kids in real-time or play back recorded clips using your smartphone, or tablet.
- You'll have peace-of-mind knowing our systems are designed to record up to 30 seconds of any triggered event and saves each recording for up to 30 days.

Home Automation + Pro Video:

- This system includes everything listed above in the Pro Video Monitoring package
 - PLUS a Lamp Module (\$149 value)
 - PLUS your choice of a Door Lock, Smart Thermostat or Garage Door Opener or an additional camera!
- With home automation you are able to control the lights remotely as well as remotely lock/unlock your door for easy access using your smartphone or tablet!
